

THE SITUATION  
IN VANCOUVER

Everything Quiet and Orderly—First of the Prosecutions—Ortentials Fired.

Vancouver, B.C., Sept. 11.—The day was quiet, but hotels and restaurants are still without Chinese help, and good square meals are not yet the order of the day. The hotel of a Chinaman was burnt this morning who had committed suicide by hanging. It was at first suggested that this was a murder, but an investigation showed that his accidental death was involved in the killing.

Mr. Morikawa says he has asked that the mayor have the police called in for protection, but his wife's residence there is no necessity of this, since San Francisco has been quiet, and no one has been noticed.

Many day was made to do the police can

not have been reached. In one or two cases the police were without having been seen.

The belief is that the Japanese, in

aspiration to the police can

not have been reached.

On the police court today there was a short array of riot cases and bowie knives and revolvers formed a conspicuous part.

Many Orangemen were out for

carrying concealed weapons and in cases that were tried the minimum fine of \$100 was imposed.

The police court imposed

imposing fines stated that they had

protection.

The police authority will not con-

vene any opposition to law and order was shown in the action of the magistrates who imposed a fine of \$100

on a young man who attempted to pass the police into the city.

## What to Drink

A most important question. What to drink concerns every human being, especially where conditions of local water supply are not good. What you drink has as much influence on your health as what you eat. Residents of Edmonton may now have beverages that taste good, are good and which can be relied upon for good. We have established in Edmonton the first water distilling plant west of Lake Superior, and from these "stills" comes every drop of water used in making our beverages. These beverages—"Hygeia Best"—are absolutely free from mineral or bacteriological contamination and contain

## No Lime or Alkali

The carbonated drinks we are making in Edmonton are of the same high class of beverages that have made our Toronto business the largest of its kind in Canada.

Among the "Hygeia Best" Beverages are

Belfast Ginger Ale	Tona-Cola
Ginger Beer	Orange Phosphate
Lemonade	Cherry Phosphate
Lemon Sour	Raspberry Phosphate
Sarsaparilla	Potash Water
Birch Beer	Soda Water
Cream Soda	
Hygeia Distilled Sparkling Lithia Water

## From Day to Day

## GAME CALLED.

Gains called. The day's hot work is done! The player is a man again. And even as you and other men is grateful that his rest is over.

Game called. The bleacher's right to green. He comes with a few poor points forfeited. Outside the fence. The player calls his soul his own.

Game called. The effort which they chose. Wait, because you say it win? For failure is our only sin?

A stronger struggle and they jolted.

Game called. And we have spent our breath.

The man who rests and rests.

The world is from the game.

The Game of Life, the Umpire, Death.

Game called. An error or a hit?

Why, what are we or praise or blame?

We only know we play the game.

When one considers the frequent misfortunes made in the wearing of jewelry by women, it is a good idea to have it in form or in defiance of these, this article by a well-bred and sensible woman.

Daily one sees selectives and bachelors—one might almost say savagery, she writes—in the use of jewelry. Few girls are seen in the streets wearing jewelry.

## G.T.R. OFFICIALS ARE ON WAY WEST

President Hays and General Manager  
Morse Will Take Tour of Inspection  
Over Line.

Winnipeg, Sept. 10.—President Charles M. Hays, of the Grand Trunk railway, and General Manager George Morse, on Friday, September 13, on his way west, on the annual trip of inspection in connection with the construction of the line in the west. He will be accompanied by a party of railway men and with General Manager Morse will proceed west immediately to ascertain what has been done in the great task of construction.

The inspection trip which is to be made this year will be the most thorough which has ever been taken. At all times the men will be on the road between Winnipeg and Edmonton where the laying of the grade and steel has been completed, visits will be made by the officials. Besides the work of investigating the progress of the season's work it is also intended that the attention of Mr. Hays will be given to a number of other matters in connection with the road. Among these will be the inspection and investigation of Grand Trunk interests in the province of Alberta. The road to the oil fields is now ready to let the contract for the last section of the line across the mountains so that the oil can be brought to take the work with an assurance of timely delivery. Mr. Morse, however, has indicated that management would not sanction the use of oil fields in circumstances it would be possible to get any certainty of supply conditions.

Another matter which will doubtless occupy the time of the inspection party will be the matter of further development in the coast province after the completion of the line. Mr. Hays is current that it is the desire of the company to have a line from Prince Rupert to Vancouver, but it is practically certain that nothing definite can be done in this regard until the main line is completed.

The inspection party will probably take a month or six weeks on the trip. An extended journey through the north, however, is not contemplated, and if the trip is made over the line of surer, the time will be longer.

## POPULAR PRIEST DIES IN MONTREAL

Descendant of the Glenaldaire And  
Clauraudis Dies in Montreal at  
Advanced Age.

Montreal, Sept. 9.—Rev. Father Thomas, a descendant of one of the founders of the Immaculate Conception, was born in Bremerton, May 11, 1846. He was the son of James and Mary (McNamee) and the son-in-law of the Castle of Taran regiments of Highlanders, P.E.I., chief of the clan. Father Thomas' son, Rev. Father, the deceased Jesuit was consequently the grandson of Colonel John Macdonald and, regrettably, the son of the man whose brain of the great Canadian was disposed of his estates in Scotland and emigrated to Prince Edward Island with his wife and family. Father Thomas' mother was Elizabeth, daughter of Alexander Macdonald, 1804, class of 1826.

At the age of eight he was sent to England and began his studies at St. Mary's Academy, Bremerton, where he remained and spent the years 1851-52 in Edinburgh, qualifying for the civil service, for which his family declined to go to Canada and began the study of medicine at McGill. At the close of his university course he was sent to the seminary and taught and studied successfully at Fordham, N.Y., St. Mary's College, Montreal, and the University of St. Michael's. The Jesuit was raised to the priesthood in 1872 in Baltimore by the Bishop of Baltimore, and exercised his ministry during the past thirty-five years in Montreal; Brandon, Man.; Sainte Marie, Gaspé River, and other Jesuit Missions.

To the end Father Macdonald was a court old gentleman, with a kindly heart, a ready smile, the grace of countenance and manner which came from him from a long and distinguished line of Scottish ancestors. The son of the late colonel Sir William Macdonald, of whom he is also survived by a sister, who is the lady, a superior in an Australian convent, he died in his sleep at the Jesuit cemetery at Bremerton as Recollect.

### MAKE BIG CLEAN UP.

Fargo, N.D., Sept. 10.—In what undoubtedly will be a big clean-up during the winter, the city has been put on a heavy diet of the grace of conservation and manner which came from him from a long and distinguished line of Scottish ancestors. The son of the late colonel Sir William Macdonald, of whom he is also survived by a sister, who is the lady, a superior in an Australian convent, he died in his sleep at the Jesuit cemetery at Bremerton as Recollect.

Financial Stringencies Causes Failure.

Lynn, Mass., Sept. 10.—The lightness of the pocketbooks and the pressure of credits is said to have caused the failure of James T. Lenox. His liability is \$2,500,000. He is a director in over 30 corporations.

### ANTWERP DOCK STRIKERS. Boarded Two British Steamers and Destroyed Property.

Antwerp, Sept. 10.—The rioting dock laborers, boarding the British steamers and freighters, destroyed their freighting implements and seriously injured their engineers.

They also took a number of the British steamers Sydney, tossed a number of men and truck overboard, and did other damage.

Their violence so terrified the men at work on board a number of vessels that they had to abandon them.

The disturbances continued throughout last evening. The strikers lay in the splendid accommodation which the shipping companies now provide.

They also attempted to interfere with English and German steamer breakers as arrived. The strikers captured an ordinary freighter, broke its breakers to and from the wharves and threw it overboard a dock.

### TEN MILLIONS FOR CHARITY

John D. Rockefeller Has Parted  
With This Amount for the Bene-  
fit of Charitable Institutions.

New York, Sept. 9.—The World says: John D. Rockefeller has parted with \$10,000,000 for charitable institutions.

In an address given a year ago before the Cleveland religious gathering Rockefeller said he had always followed the principle of giving one-tenth of his earnings to charity.

Accepting this statement as

it is, it is a perfectly natural

conclusion that

it is the general testimony of those

who have been brought into close

contact with Mr. Rockefeller

that he is the ordinary public benefactor,

that other sources max in regard

to his giving.

He has never, so far as is known, handed out a list of his charities.

But a list such as this has been compiled by one of his secretaries.

Personal gifts and annuities

and other contributions which appear on the list notwithstanding

they are said to have absorbed in the aggregate about \$10,000,000 of the Rockefellers' assets.

### AN EASY MARK.

Rockefeller's reputation among professional gamblers is that of an easy mark. He is known to appear cautiously and yet frankly and plainly through unscrupulous chicanery and the like. Mr. Rockefeller, says his friends, is not a man of the world in the sense of being a gambler. Until ten or twelve years ago he was so engrossed in the development of the oil industry that he had little time for anything but business. He attended church and devoted himself to business, and what was about as far as he got.

Although he has been compelled to take more leisure in the last few years, on account of his age, he has drawn himself into other spheres of experience and observation whereby he has an intimate knowledge of the world as well as religious education, which has never crossed the threshold of art or literature. He is a man of unusual principal scope of his colossal gifts. From this it is expected he intend to give a large amount to the Medical Research, which was originally aroused, however, by a misfortune of his own.
